Summary

Senior Software Engineer with 6+ years of experience building scalable Java/Spring Boot microservices and distributed backend systems on Oracle Cloud Infrastructure (OCI). Expertise in REST APIs, concurrency, cloud automation, observability, and platform reliability.

Experience

Oracle India Pvt. Ltd., Senior Software Engineer

Nov 2022 – Apr 2026

Enterprise Communications Platform Real-Time (ECPRT)

- Designed and developed **Java/Spring Boot** control-plane microservices to deploy, upgrade, and manage **15+ data-plane microservices** across OCI using **Kubernetes** and **Helm**.
- Automated **certificate and secret lifecycle management**, including rotation, renewal, and revocation using **OCI Certificate** and **Object Storage**.
- Built **platform observability** using metrics, dashboards, and alerts, enabling proactive monitoring and faster issue detection.
- Implemented **distributed locking** to ensure safe concurrent execution across multi-node deployments.
- Developed **OCI Functions** and schedulers for health checks, resource cleanup, and workflow automation, **reducing manual operational effort by ~50%**.
- Improved platform reliability by resolving security vulnerabilities, strengthening integrations, and enhancing disaster recovery readiness.

Software Engineer

July 2019 – Oct 2022

Enterprise Productivity Platforms

- Developed an automated sizing platform using **Oracle APEX** and **PL/SQL**, reducing manual sizing effort by **60%** and improving proposal turnaround by **20%**.
- Built interactive dashboards and reports to generate real-time sizing insights for sales and pre-sales teams.
- Built a centralized staffing platform using **Oracle APEX** and **PL/SQL**, replacing Excel-based tracking for **40+ managers** and reducing manual effort by **60%**.
- Developed LDAP-integrated dashboards and reporting for real-time workload visibility.
- Led feature development, mentored **3 interns**, and transitioned platform ownership through structured knowledge transfer.

BlackRock, Software Developer Intern

Jan 2019 – June 2019

- Integrated **Prometheus** monitoring into **Java Spring Boot microservices** using custom event listeners and metrics instrumentation, and developed **Grafana** dashboards tracking **10+ KPIs**, improving production issue detection by **20%** and reducing troubleshooting time by **25%**.

Education

BE **Thapar Institute of Engineering & Technology**, BE in Computer Engineering – 8.74

July 2015 – May 2019

Skills

Languages: Java, Python, C++, SQL, PL/SQL

Backend: Spring Boot, Spring Framework, REST APIs, Microservices, Maven, JUnit

Cloud & DevOps: OCI, Kubernetes (OKE), Helm, Git, Prometheus, Grafana, ELK Stack

Database: Oracle Database, OCI Object Storage

Core: Distributed Systems, Concurrency, Event-Driven Architecture, System Design, DSA

Certifications

Oracle Cloud Infrastructure Certified Foundations Associate

Mar 2025

Achievements

Oracle Rising Star Award

June 2024

- Recognized for leading the Staffing & Worklog platform from development through production rollout and stakeholder enablement.
